

SURABH SAXENA

Budget & Operations Analyst | Financial Reporting | Enterprise Systems | Data Analytics

Cleveland, OH | (216) 713-3865 | surabhdata@gmail.com | [linkedin.com/in/surabh-csu](https://www.linkedin.com/in/surabh-csu)

PROFILE

Budget, operations, and data analyst with 5+ years of experience in cost estimation, project coordination, financial modeling, reporting dashboards, and process improvement. Master of Information Systems graduate from Cleveland State University with strengths in budget monitoring, expenditure tracking, procurement documentation, advanced Excel, SQL/Python analysis, Power BI/Tableau dashboards, data validation, and customer-focused stakeholder reporting.

CORE SKILLS

Budget support | Cost estimation | Expenditure tracking | Financial reporting | Forecast dashboards | Variance/trend analysis | Advanced Excel formulas/macros | SQL | Python | Power BI | Tableau | Data validation | Procurement documentation | Process mapping | Root-cause analysis | Enterprise financial systems readiness

PROFESSIONAL EXPERIENCE

Founder & AI Builder | ProcureGo - AI Procurement Copilot, Weston Ideation Lab Jun 2026 - Present

- Designing an AI-enabled procurement copilot for higher-education and institutional sourcing, RFQ generation, supplier comparison, vendor management, bid support, and decision review.

Project Coordinator (Product & Operations) | CGMP Pharma N Plans Oct 2020 - Mar 2023

- Supported budget preparation, expenditure tracking, cost monitoring, financial documentation, and project reporting for healthcare infrastructure projects.
- Built dashboards tracking cost, velocity, resource utilization, and performance; surfaced inefficiencies that reduced project cost by 8%.

Cost Estimation Engineer | Avant Garde Clean Room & Engg Solutions Jan 2018 - Sep 2020

- Prepared cost estimates and budget models for 35+ cleanroom and healthcare projects, including a USD 381,850 engagement for the Nepal healthcare sector.
- Automated cost-estimation models using SQL, Excel macros/formulas, and statistical analysis, improving budget accuracy by 15%; developed forecast visualizations for leadership decisions.

CSU LEADERSHIP & FINANCIAL GOVERNANCE

Roles: Student Government Treasurer; Green Blazer Student Ambassador; GFAC Policy Review Board; Center for Campus Engagement Data Visualization Lead; Student Dining Ambassador.

- Managed finance, vendor relationships, and policy-compliant procurement support across 146 student organizations, including guidance for student officers.
- Built automated tracking systems and Power BI dashboards for budget/activity reporting, event KPIs, engagement trends, vendor data, and invoice records.

SELECTED ANALYTICAL PROJECTS

Algal Bloom Detection: Co-built a NASA technology-based civic/environmental AI solution to identify local algal bloom issues with a 90% accuracy model; Weston Ideation Lab Hackathon winner.

Journey Hive: Architected a SQL/MongoDB-backed transportation database system and designed experiment parameters to improve user-flow efficiency by 20%.

EDUCATION

Cleveland State University | Master of Information Systems | GPA: 3.57 | May 2026

Courses: Data Mining & Machine Learning | Project Management | CRM | Advanced Systems Analysis | Database Management

UPES | Bachelor's in Instrumentation & Control Engineering | May 2017

TECHNICAL SKILLS & CERTIFICATIONS

Tools and methods: Advanced Excel, Word, PowerPoint, Outlook, Teams, SQL, Python, Power BI, Tableau, MongoDB, MS Project, Trello, Agile, Waterfall, process mapping, documentation, stakeholder reporting, vendor management.

Certifications and highlights: Oracle Certified Generative AI & Prompt Engineering; Oracle AI Foundations; Statistics I & II; National Cyber League 2025 Badge of Success; CFI certification in progress.
